Rules of Invitation Promotion for Consumers/Sporters

This document explains how Fittery invitation promotion (or referral bonus) works for sporters. There are several user journeys that can occur for both groups and how the referral fee is applied. And under what conditions it's assigned. Existing Fittery sporters can invite sporters. Sporters can see a unique personal friend-referral-link in their account which can be shared with family, friends and other connections either via email, whatsapp and or socials.

- In total every sporter gets the opportunity to send this friend-referral-link to family & friends with a maximum of 5 active new sporters. This amount can be adjusted in time.
- The existing sporter that invites a new sporter, which in his turn has booked at least one paid sports lesson, will get €5 through a bank transfer, and is processed automatically with a maximum delay of 31 calendar days after the new sporter has activated their account and booked and visited a first paid sports lesson.
- The existing sporter can see some basic statistics on registrations and referral bonus earned in his Fittery Account in the App. It also includes a link that explains how to claim the earned referral bonus.
- This referral fee & commission discount for this promotion will only be processed if the new sporter's registration happens directly via the friend-referral-link, it can not be added later in the sign-up process. And only applies if the new sporter has not been registered as a member at Fittery before.
- A new sporter can only use 1 unique trainer referral link. The new sporter will receive €10 special promotion through your referral. This will be paid with a maximum delay of 31 calendar days after the first paid booking is completed.

Additional information
